

Meter Reading Application (MRA) - Product SKUs / Modules

1. Overview

The MRA system is modular, offering different product SKUs based on organization size, required functionalities, and integration levels. This modular approach enables scalability and customization.

2. Product Modules / SKUs

MRA-Core

Basic meter reading functionality with mobile app, login system, and manual data entry.

MRA-OCR

Includes real-time OCR-based meter reading capture integrated with the mobile app.

MRA-Admin

Web-based admin portal with dashboard, user/role management, and analytics.

MRA-Vendor

Web-based vendor portal for assigned route management and meter reading submissions.

MRA-SAP-Connector

Real-time integration with SAP OData APIs for data sync and transaction logging.

MRA-SpotBill

Module for real-time bill generation and printing from the mobile app.

MRA-Reports

Advanced reporting tools and PDF export options from admin portal.

MRA-Custom

Custom features as per enterprise requirements (e.g., multilingual support, geo-tagging, etc.)
