

# Meter Reading Application

## A Smart, Efficient, and Scalable Meter Reading Application

### Key Features:

- Real-time Meter Readings: Accurate and quick meter data collection.
- Spot Billing: Instant billing based on meter readings.
- OCR Integration: Seamless real-time number extraction for data entry.
- SAP Integration: Smooth connection with SAP for data syncing.
- Mobile & Web Access: Accessible on-the-go with Flutter and PHP-based portals.

### Benefits:

- Efficiency Boost: Faster data collection and billing process.
- Accuracy: Minimized human errors with OCR and automated syncing.
- User-Friendly: Simple UI for seamless navigation and quick actions.
- Cost Savings: Reduced operational costs through automation.
- Scalability: Flexible for both small and large-scale operations
